PROFILE

With 2+ years of frontend experience, I'm a skilled Software Engineer, specializing in React.js and Next.js to build intuitive, high-performance web applications. I leverage modern UI libraries and frameworks like **Material UI, Tailwind CSS, and Bootstrap** to craft visually appealing and responsive designs. I transform complex ideas into scalable, user-centric solutions. My passion for clean code and innovation drives me to create impactful projects in dynamic teams, shaping technology that empowers the future.

SKILLS

Frontend Development

- React.js
- Next.js
- HTML
- CSS
- Bootstrap
- Redux
- Zustand
- useContext
- Ant Design

Responsive Design

- Media Queries
- Flexbox
- Grid Layout
- Mobile-First Design

UI Libraries

- Material UI
- Ant Design
- Tailwind CSS

Version Control

- GitHub

PROFESSIONAL EXPERIENCE

Senior Frontend Developer

Aug 2024 – present | Islamabad, Pakistan

Solutionwing.io ✉

- Spearheading the development of scalable web applications, designing and delivering seamless, intuitive user interfaces tailored to the diverse needs of client projects.
- Leveraging React.js and Next.js to build responsive, high-performance applications, with a strong emphasis on optimizing user experience through efficient rendering and smooth interactions.
- Implementing modern frontend practices, such as component-based architecture and advanced state management (e.g., Redux or Context API), to ensure high code quality, reusability, and long-term maintainability.
- Collaborating effectively with cross-functional teams, including designers and backend developers, to integrate APIs, enhance application functionality, troubleshoot issues, and consistently meet project deadlines.

Frontend Developer

Jan 2023 – Jul 2024 | Islamabad, Pakistan

DevForHealth

- Leading the development of four healthcare projects, spearheading the creation of high-quality, user-friendly interfaces designed to meet the specific needs and standards of the healthcare industry.
- Utilizing React.js and Next.js to build responsive, efficient web applications, ensuring seamless performance and tailored functionality to address critical healthcare requirements, such as patient data management and accessibility.
- Implementing best practices in frontend development, including optimized code structuring, performance tuning (e.g., lazy loading, code splitting), and maintainability through modular design, to enhance the reliability and scalability of healthcare applications.

PROJECTS

Ksa4sales ✉

<http://168.231.80.24:3002/>

The KSA4Sale system is a fully developed, robust online marketplace designed to rival OLX, crafted entirely by you using the MERN Stack (React.js, Node.js, and MongoDB).

<https://podstarz.net/> 

Podstarz

An online celebrities platform for podcast in React js and Node and MongoDB

<https://saloonshop.vercel.app/> 

Saloonshop

A modern online platform developed with React.js, Node.js, and MongoDB that connects users with celebrities. It focuses on delivering a smooth user experience with a scalable and dynamic architecture.

EDUCATION

Abasyn University 

Bachelor of Science in Software Engineering (BSSE)

2018 – 2022 | Islamabad, Pakistan
